

Social Media Checklist

How we communicate, where we get our news, how we listen to music and watch TV mostly happen through on-line accounts. Today, we have an abundance of communication and entertainment programs that are only accessible through on-line subscriptions, some free, some quite costly. If something were to happen to you, would you or your loved ones know what subscriptions you have, what to do with them and be able to recover or turn these services off?

In today's digital world, we have so many services available to us, it makes organizing the programs we do have extremely difficult. And keeping track of all the logins and passwords is nearly impossible! So we've created this list to help you think through what social media and entertainment accounts you have. Not only will making a list benefit you, it will make dealing with these accounts when you're gone so much easier for your loved ones.
